About Us

Bravo textile is located in Shuyang Intelligent Textile Industrial zone, Jiangsu province, its origin is in Huzhou City of Zhejiang-National Textile Province.

We mainly deal in manufacturing most woven fabrics and export & import business. Although we are a new company, but we have been in this line for more than twenty-five years. We have over 10,000 advanced machines with an annual output of 1 billion meters of various microfiber fabrics. Our products have been exporting to tens of countries and regions such as mid-east, southeast Asia, Africa, which enjoy good reputation in the field.

With rich experience, advanced machinery, high professional and modern management, our capacity has allowed us to serve customers all over the world. All producing process is under strict control, from material preparing, fabric weaving, dyeing or printing, products making to packing details. And there is no need for you to worry about new design & style with us, as we have responsibility on exact search, fast proofing and wide source.
