

Guangzhou JBY Enzyme Co., Ltd. a office based on enzyme business, is the office branch of Sunhy group.

Sunhy group has the world-class production base, biological enzyme research institute, non-nutrition functional additives base, chemical additive synthesis base, aquatic animal medicine GMP base and animal experiment base, formed a green, safe and highly effective for the significant features of the additive enterprise group.

At present, all products are ISO9001, HALAL, KOSHER certification, and some products have been registered in 43 countries.

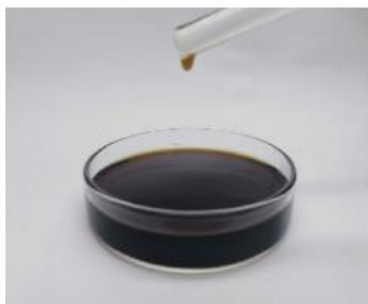

Sunhy group products have been exported to Southeast Asia, Russia, Ukraine, Mexico, South America, South Korea, Taiwan and other countries and regions. The annual export volume is increased by 100%.

Sunhy group, holding the concept of development of "science and technology innovation as the core, product research as key point, large-scale of key products as base, marketing network and product brand building as guarantee", is one of the most professional service suppliers of enzymes, feed additives and chemical raw materials.

In the future, Sunhy Group will strive to be a world-leading supplier of enzymes, feed additives and chemical raw materials and make contributions to environment protection and energy-saving.

dye bath enzyme

neutral cellulase liquid

acid cellulase enzyme liquid

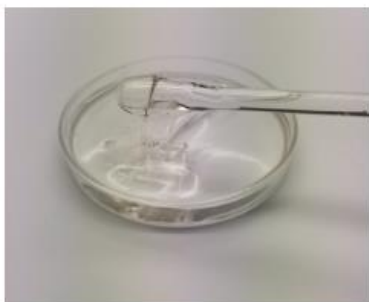

powder neutral cellulase enzyme

scouring enzyme

industrial pectinase enzyme

softener agent

wetting agent

silicone oil

non-formaldehyde fixing agent

neutral cellulase enzyme granule

softener flakes

acidic cellulase powder

Acid Protease Powder

Alkaline Protease Powder

Neutral protease powder in feed,

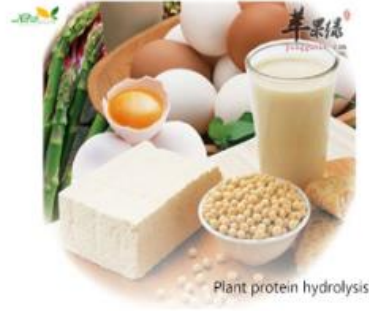

Powder Glucoamylase

Anti Back Stain Powder

Food Grade Pectinase for Juice

protease

powder amylase enzyme

Catalase

alpha-amylase desizing enzyme

Liquid Glucoamylase
