Textile Testing Services

When it comes to textiles, apparel and footwear, consumers have high expectations for consistency, quality and safety. Manufacturers & exporters have the challenges to meet all the requirements. With increased presence of global brands in Bangladesh, the need for quality and timely delivery of fashion goods has increased. The pressure to cut costs and the complex interactions of the global supply chain further make it challenging to ensure end-to-end quality control. At the same time, the rapid turnover of fashion cycles places additional demands on manufacturers, retailers and importers. With its technical expertise and experience in the textile sector, GEO CHEM recognizes these challenges. We can support your safety and legal quality requirements while helping to minimize costs with our testing, inspection, La-fit, certification, and training services.
