RECYCLING AND REUSE

100%再生涤纶长丝
100% Recycled Polyester filament

公司介绍:

苏州春盛环保纤维有限公司是一家专业生产再生涤纶纱线和差别化及功能性纱线的制造商，公司地处素有“服装面料苗木之乡”之称的江苏省吴江市柞林镇，地理位置优越，交通便利。

公司具备10万吨涤纶长丝的年生产能力，拥有技术水平先进的纺丝和卷绕设备，拥有6条生产线，共216个纺丝位。2013-2016年之间不断的进行设备技术改造，新增多个小纺位。可根据客户要求定做不同功能及要求的环保产品。

主要产品有：涤纶环保纱（GRS、OEKO-TEX认证），细旦原液着色丝，PLA有色，SPH，CEY，T300，PBT FDY和中强黑丝，低温染色阳离子。功能性纱线如凉感、保暖、阻燃、抗菌等品种。产品畅销国内外20多个国家。

公司积极响应国家提倡发展绿色、环保经济号召，主推环保丝。环保产品涵盖FDY/POY/DTY/ITY系列，同时开发有色环保丝，已大量投放市场，得到了用户的一致好评。

“保护环境，创造绿色地球”永远是我们的目标，我们将恪守“创新，改革，开拓，拼搏”的企业理念，以完美的品质，更周到的服务，回报您的支持和关怀。欢迎来我公司参观，指导和洽谈！

Suzhou Chunsheng Environmental Protection Fibre Co., Ltd. is a manufacturer specializing in recycled polyester yarns and special and functional yarns. The company is located in Taoyuan Town, Wujiang City, Jiangsu Province, which is known as the "hometown of clothing and seedlings". Excellent location and convenient transportation.

The company has an annual production capacity of 100,000 tons and has advanced spinning and winding equipment in 6 lines with a total of 216 spinning positions. Between 2013 and 2016, the equipment technology was transformed, and a number of small spinning positions were added. Yarn products with different functions can be customized according to customer requirements.

The main products are: polyester Recycled yarn (GRS, OEKO-TEX certification), fine denier Dope dyed, PLA colored, SPH, CEY, T300, PBT FDY and medium tenacity black, Easy dyeing cationic. Functional yarns such as cool, warm, flame retardant, antibacterial and other varieties. The products sell well in more than 20 countries in abroad.

The company actively responds to the country's call for the development of green and environmental protection economy, and promotes environmental protection. Recycled products cover the FDY/POY/DTY/ITY series, and at the same time, the development of colored Recycled yarns has been put on the market in large quantities and has been well received by users.

环保纤维简介

公司提倡发展绿色、环保经济，目前主推环保纤维系列，并通过GRS、OEKOTEX认证。环保纤维的材料是使用二次回收的瓶片，在生产过程中不给环境带来负担，在使用的过程中减轻对环境的污染。环保产品目前涵盖FDY/POY/DTY/ITY系列，同时开发黑丝环保纤维，多个品种已经投放市场，得到了用户的一致好评。差别化环保纤维也正在开发、试样中，主要定位在改性环保纤维、消光环保纤维、功能性环保纤维等。环保纤维的主要应用在：商标纱，织带，高端运动服，鞋材，家纺，户外装备等诸多领域。

公司目前和许多高等院校、多个高端品牌厂商共同拓展环保纤维新的应用领域。

Introduction of Recycled Yarn:

The company advocates the development of green and environmental protection fiber. At present, we mainly introduce Recycled Yarn series which passes GRS and Oeko-tex certification. It use post-consumer recycled bottle chips. During the production and using processes, they do not burden the environment. Currently yarns are covering FDY/POY/DTY/ITY series, we are in development of colored recycled yarns. Both have been put on the market and received good comments.

Special recycled yarns is coming soon, mainly are in modified recycled yarns, full dull, functional and etc. Mainly used in trademark yarns, ribbons, high-end sportswear, shoes, home textiles, outdoor equipment and many other fields.

The company and many institutions of higher schools, fiber research units, some high-quality branded manufacturers to jointly develop new application areas of recycled yarns.
