

# PRODUCT CATALOGUE

## Product Lists for Textile Industry

---

### PRETREATMENT AUXILIARIES

Detergent P101  
Scouring Agent P201  
Scouring Agent P202  
Hydro Peroxide Stabilizer P301  
Chelating Agent P401  
Chelating and dispersing Agent P402  
Defoamer P501

### DYEING AUXILIARIES

Fixing agent D101  
Fixing agent D102  
Leveling agent for cotton D201  
Acid leveling agent D202  
High temperature leveling agent D203  
Soaping agent for cotton D301  
Acid soaping agent D302  
Friction fastness improver D401  
Soda Ash Substitute D501  
Fluorescent whitening agent 601

### PRINTING AUXILIARIES

Thickener Y101  
Thickener Y102  
Printing binder Y201  
Printing softener Y301

### FINISHING AUXILIARIES

Silicon softener F101  
Hydrophilic Silicone Softener F102  
Ice Feeling Silicone F103  
Fluffy Smooth Silicone F104  
Silicone color deeper F105  
Waterproof agent F201  
Fluorine free waterproof agent F202

## PRETREATMENT AUXILIARIES

Name	Appearance	Ionicity	Application capability	Packing
Detergent P101	Light yellow liquid	Anionic/ Nonionic	Excellent capacity of removing oil and dirty, can be used for all kind of fabrics.	120 kg drum
Scouring Agent P201	Transparent thick liquid	Anionic/ Nonionic	Desizing, Scouring and bleaching one-bath of pure cotton and blending fabrics.	25 kg/bag
Scouring Agent P202	Light yellow liquid	Anionic/ Nonionic	Oil and dirty remove for cotton, Wetting, whiteness and scouring for cotton.	120 kg drum
Hydro Peroxide Stabilizer P301	White powder	Anionic	Used for pre-treatment for cellulous fiber.	120 kg drum
Chelating Agent P401	Brown yellow liquid	Anionic	Strong chelating function to Ca, Mg & Fe metallic ion, can work on all kinds of pre-treatment or dyeing process.	120 kg drum
Chelating and dispersing Agent P402	White powder	Anionic	Excellent ability of chelating metallic ions, and strong ability of removing and dispersing loose color.	120 kg drum
Defoamer P501	Milky white liquid	Nonionic	Excellent ability of de-foaming and resistance in de-foaming.	120 kg drum

## DYEING AUXILIARIES

Name	Appearance	Ionicity	Applications Capability	Packing
Fixing agent D101	Deep brown liquid	Cationic	Fixing function for reactive dyes, direct dyes and printed fabric	120kg drum
Fixing agent D102	Light brown liquid	Cationic	Fixing function for reactive dyes, direct turquoise blue dyes.	120kg drum
Leveling agent for cotton D201	Yellowish-brown liquid	Anionic	Excellent leveling and migration capacity in the dyeing process of cotton and blending fabrics	120kg drum
Acid leveling agent D202	Yellowish-brown liquid	Amphoteric	Excellent leveling and migration capacity in the dyeing process of Wool, nylon, blending fabrics and so on	120kg drum
High temperature leveling agent D203	Yellowish-brown liquid	Anionic/ Nonionic	Excellent leveling and migration capacity in the dyeing process of polyester and blending fabrics.	120kg drum
Soaping agent for cotton D301	Light yellow liquid	Anionic/ Nonionic	Excellent dispersing and soaping capacity, used in the soaping process of cotton dyeing	120kg drum
Acid soaping agent D302	Colorless or light-yellow liquid	Nonionic	Excellent dispersing and soaping capacity, used in the soaping process of acid dyeing	120kg drum
Friction fastness improver D401	Light yellow liquid	Cationic	Cotton fiber and its blended treated by Sulphur, reactive or direct dyes, fixing after dyeing	120kg drum
Soda Ash Substitute D501	White powder	Nonionic	Fixing agent for pure cotton knitting fabric reactive dyes	25kg bag
Fluorescent whitening agent D601	Yellow powder	Cationic	Excellent whitening effect, used to cotton, viscose and other fabrics.	50kg drum

## PRINTING AUXILIARIES

Name	Appearance	Ionicity	Applications Capability	Packing
Thickener Y101	Milky liquid	Cationic	Coating printing paste thickening for various fabrics	120kg drum
Thickener Y102	Milky liquid	Cationic	Thickening of cellulose fiber and other blending textile coating printing pastes.	120kg drum
Printing binder Y201	Milky liquid	Cationic	Good adhesion, the film is stable and has a soft feel	120kg drum
Printing softener Y301	Milky liquid	Cationic	Effectively improve the softness of the printing surface.	120kg drum

## FINISHING AUXILIARIES

Name	Appearance	Ionicity	Applications Capability	Packing
Silicon softener F101	Colorless liquid	Cationic	General softener for soft finishing treatment of cotton and blending fabrics	120kg drum
Hydrophilic Silicone Softener F102	Light yellow liquid	Cationic	Excellent hydrophilic softener, used in all kinds of fabrics	120kg drum
Ice Feeling Silicone F103	Colorless liquid	Cationic	used in cotton finishing treatment, make fabric feels smooth and with a ice cool style.	120kg drum
Fluffy Smooth Silicone F104	Light yellow liquid	Cationic	suitable for finishing of various fabrics, bring fabric with excellent fluffiness and softness.	120kg drum
Silicone color deeper F105	Milky liquid	Cationic	Bring the fabric with excellent softness and deepening effect	120kg drum
Waterproof agent F201	Milky or light-yellow liquid	Cationic	Suitable for waterproofing and oil-repellent treatment of wool, silk, cotton, polyester and other fabrics.	120kg drum
Fluorine free waterproof agent F202	Milky or light-yellow liquid	Cationic	Fluorine-free, highly effective waterproof finishing agent for various fiber types	120kg drum
