Hebei Ruixin Chemical Industry Co., Ltd.

Welcome to Ruixin Chemical Industry Co., Ltd.

Hebei Ruixin Chemical Industry Co., Ltd. is a professional manufacturer of basic green, basic orange and some pigment intermediates. Ruixin can produce 2200MT BASIC GREEN 4 (MALACHITE GREEN) OXALATE (malachite green) annually, in the form of Basic Green Crystals, Basic Green Powder or Basic Green Liquid. We also produce Basic Orange 2 in the form of powder or crystal and some pigment intermediates.

Quality Basic Green (Malachite Green) at Competitive Price: Through adoption of Korea advanced production technology and advanced machine, together with the continuous effort of our dedicated experts and technicians, we have successfully developed first-class Basic Green Series with No Heavy Metal Content like lead or zinc. It is regarded as Green Environmental Protection Products by the trade.

Seeking Direct Business Now with Foreign Customers: We mainly produce and sell various basic green and basic orange and intermediates, with 65% of our products are exported to Europe, the USA, Japan, South Korea and some Southeast Asian countries through foreign trading companies of Liaoning, Dalian, Tianjin, Hangzhou, Jiangsu, Shanghai, etc.

Now we are seeking direct business relationship with foreign customers by launching our basic green products and services through our website. Please contact us for basic green (malachite green) or basic orange, we promise our prompt response and competitive prices.

Environmental Protection: We produce "green" basic green products at one hand, we also emphasize on environment protection during our production of basic green and other products. Owing to our modifying of the productive technology, also our investment on sewage treatment, we have been awarded the title of Sewage Treatment Qualified Enterprise by Hebei Provincial Environmental Protection Bureau successively for over 20 years. Our company will pass ISO14001 environment managing system in 2004.

BASIC ORANGE 2
BASIC YELLOW 2
BASIC VIOLET 1
BASIC VIOLET 3
BASIC VIOLET 10
BASIC BLUE 7
BASIC BLUE 9
BASIC BROWN 1
BASIC BROWN 4
Boric anhydride
N,N-dimethylaniline
Mphenylenediamine

OUR MISSION

Hebei Ruixin Chemical Industry Co., Ltd. is very environmental sensitive. We realized that environmental protection is what a modern enterprise should always consider and pay attention to. This sense will play a very important role in survival and development of modern enterprises. Enterprises and enterprisers without the sense of environmental protection will become inferior in future competition and will be eliminated through competition by the society.

Accordingly, we have invited relative experts to give regular lectures for our staff on environmental protection subject. We also learn from other companies and try to improve the environmental protection sense of the whole staff.

SERVICES

Ruixin is a manufacturer of basic green and basic orange dyes in North China, aiming at providing best quality basic dyes for worldwide customers.

We export our products in large volume every year to Europe, the USA, Japan, South Korea and some Southeast Asian countries through foreign trading companies of Liaoning, Dalian, Tianjin, Hangzhou, Jiangsu and Shanghai.

We hope to have the opportunity to provide direct service to foreign customers with our quality products and prompt delivery service.
